Rescue/Attack Team: Operation Wolf
Location: South American Jungle
Situation: Terrorists have taken American Embassy officials as prisoners.

The men of Operation Wolf, the most fearless and skilled personnel the U.S. armed forces have to offer, approach the area believed to be the center of the terrorist camp. They haven't spotted 'em yet.

Chopper One lands and Operation Wolf greets the enemy with a hail of fire.

The men have the explosives in place and ready to blow their communications tower sky-high.

Right men, team J! Get ready to go.

One terrorist installment after another is blown to bits by timed explosives planted by the pre-attack team.

These fireworks should keep the creeps busy while we round up the prisoners.

As the front gate of the camp is blasted through, the men of Operation Wolf work to steer the prisoners to the waiting escape chopper.

Everybody up and in! Hurry, hurry! Don't trip, don't push. Just move fast.

As the prisoners board the chopper, the terrorists come from all directions, their heavy guns spitting out a non-stop wave of bullets.

Get on board the chopper as fast as you can.

We'll keep 'em back long enough to get everybody on board!

HOW TO PLAY

Operation Wolf has four levels. Each level consists of six missions which are displayed on the Operations Screen. You must accomplish the mission objective and reduce all enemy forces to zero strength to advance to the next mission. The level is completed when you escape from the airport with the prisoners. Each level becomes faster and harder to complete as you progress.

When you are hit by the enemy, your level of injury increases. If the injury indicator at the bottom of the screen becomes completely red, your injury level has reached the critical point and the game ends. You can reduce your injury level by getting power drinks.

Increase your weapons supply by collecting extra grenades and bullet magazines. You'll need everything you can get!
MISSION STATUS

The player's current status is displayed below the game screen.

- Timer for FREE bullets.
- Number of magazines remaining.
- Number of bullets remaining in current cartridge.
- Number of grenades.
- Number of prisoners rescued.
- Number of enemies.
- Number of helicopters.
- Number of gunboats (in jungle mission).
- Number of armored cars.
- Current level of injury.
Civilians and Prisoners

DON'T FIRE AT THE CIVILIANS OR PRISONERS.
Your injury level increases if they are hit.

In the PRISON CAMP and AIRPORT missions, a prisoner is rescued when he crosses the screen from the right side to the left side. The number of prisoners rescued at the prison camp will appear at the airport.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that the computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio or television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: "How to Identify and Resolve Radio-TV Interference Problems."
